"Nil falsi audeam, nil veri non audeam dicere."

CICERO.

THE BUILDING FEVER.

When the influx of gold from California was at its height, the house-building fever in New York took such a rage, that the sole occupation of the Town Council was the opening of new streets and enlarging of old ones. New York rose from the insignificance of an old Knickerbocker town to the grandeur of a European city; money was plenty, gold arriving in millions by every steamboat, crops never failing, and in fact everything looked serene; but, without any war or revolution, the crash of 1857 came, and then people discovered the real state of things: first, second and third mortgages covered every house from the roof-top to the basement; these mortgages were foreclosed, and the finest house property in the city of New York when sold under the hammer was found insufficient to pay off even the first mortgages.

Within the last twelve months we have noticed that the building fever has spread to Buenos Ayres; in every street and lane we see old houses pulled down and new ones going up. Where all the money comes from to build these houses we are at a loss to discover; no California steamer arrives weekly in Buenos Ayres; no loans in the exterior have been negotiated, and yet the building is going on, and at such a rate that soon we will beat New York quite hollow: either there has been an immense amount of capital lying idle in former years, or the majority of the houses are built on credit. We are inclined to think that the latter is the case, and though bond and mortgage on real estate may be considered the best possible security, still it has its risks also, and any large amount of property forced on the market by legal sale would prove the great over value put on house property in this city.

The value of a house ought to depend upon the rent it will fetch, but house rent in Buenos Ayres to-day is enormous, and yet high as it is rarely if ever gives twelve per cent per annum on the nominal value of the house: a man therefore who in order to build a house has to borrow money by way of mortgage, finds when it is finished that good tenants are very scarce, and that the highest rent he can obtain is not equal to the interest which he has to pay on the mortgage. Then let us take into account the "contribution directa" which persuades people into a belief that house property in Buenos Ayres is going up in value forty, fifty and even one hundred per cent each year: the consequence is that unless a man has his house free of mortgage he has no income whatsoever out of the property, and again if he has no mortgage on it then he has his money invested in a security which to preserve is expensive, and which hardly gives him half the interest that his money would fetch in the market.

So long as this house building business is limited to capitalists, such as Anchorena and others, it can have no prejudicial effect on the country, but when we see the building fever set in, in all its virulence, and people of limited means erecting fashionable dwelling houses, we think it is time to give warning. Every house built in Buenos Ayres we will admit adorns the city, and even go so far as to say improves the property, but every house constructed sinks so much capital, takes so much ready money off the market, which we are inclined to think might be turned to greater advantage.

When money in Buenos Ayres is so abundant that the market rate of discount will not exceed six per cent., then we consider people may build as many houses as they think proper; but at

present, with money so dear, and the value of property so inflated by Government valuations, the fewer houses built by the aid of mortgages the better.

THE INDIANS AGAIN!

Congress is to be closed to-day, having gone through a variety of matters during the past legislative period, yet no measure has been taken on a subject the most important for the welfare of the nation, and during the recess we may expect that the Indians will be more troublesome than ever before, and that the Executive will be unable to check the evil effectually. President Mitre in his inaugural address to the Chambers last May stated that the contractor Mr. Meiggs was about to employ all the able-bodied Indians of the Pampas as navvies on his projected railway from Chile to B. Ayres. The Chambers seem to have confided in that promise: we did not.

The coincidence of three invasions reported yesterday may be understood as an insinuation by the savages to Congress that they have neither renounced their claim to the Pampas nor their hostility to white settlers for the many injuries they have received by broken treaties, treacherous trade dealings, and a flagrant want of humanity or justice in Argentine policy in their regard.

We do not profess mock-sympathy or fraternal affection for the disgusting barbarians who steal cattle and carry off Christian captives; but we emphatically propound the axiom "that something must be done with the Indians, and that our Government has not yet tried the proper expedient."

Latest news from Cordoba mentions an inroad of Indians near Fort Carlota, the marauders carrying off over 1000 head of cattle, which, however, Major Lagos flatteringly says he succeeded in recovering, as well as several wagon-loads of military uniforms and supplies which had fallen into their hands.

The siege of Junin, in this province, by a tribe of "friendly" Indians has carried terror nearer home, and shows the insecurity of a district heretofore favored by Irish sheep-farmers. Measures have been adopted to restore tranquillity, but we may remind the Legislature of B. Ayres now occupied in a law for the sale of public lands in Junin and other districts that this invasion has cost the Province very dear, in the consequent depreciation of land thereabout.

We have also just received intelligence of a grand invasion on our southern frontier in which even our ally Calafucurá is expected to take a part, and arrangements as to price have been already made with Chilean estancieros for the booty in cattle which will result from the next moon's expedition. Some people are scandalized with the Chilean Government for not preventing so immoral a traffic, but we cannot see why the Chilean Chambers should busy themselves about an Argentine affair which the National Congress at B. Ayres does not take the trouble to legislate on, or discuss. Moreover why should Chile create a Revenue-police to watch the frontier that no stock be exported from the Confederation without legal permit, when the Argentine Government is not only unable to collect the duties thereon, but even to protect or recover the stolen property of the nation.

October 6th 1864. Three Indian invasions.—Congress closed.

WHAT ABOUT THE CHINCHAS?

We have seen 4000 Argentine patriots assemble in Colon theatre to protest against the seizure of the Chinchas islands by Spain. We have been for a season molested by rampant invectives against "rotten monarchies." We were even promised a grand national display of fervor in the equipment of a volunteer legion, and collection of pecuniary donations in aid of an oppressed sister-republic.

Gentle reader! that was all bosh. Most of the crowd at Colon assisted through curiosity; about 185 were sincere in wishing to aid Peru, and less than one-tenth of the latter number were ready to subscribe in a pecuniary manner.

Four months have elapsed since the memorable meeting (12th of June), and not another word has I can hear about "sympathy for Peru"; it has been

allowed to pass into the same inglorious oblivion as "the hole in the mole" or Marotta's opera of the *Indigena*. What then, became of the 185 sincere sympathizers? We think we can answer for them thus—99 were horrified when the real facts were known, and (like ourselves) were no less ready to condemn Spanish aggression than to demand justice for the victims of Talambo, among whose murderers was said to be the President's brother-in-law.

There were still 86 inclined either to overlook the butchery of the unarmed Basques or consider it a mere pretext on the part of Spain for aggrandizement. But of this reduced number no fewer than 41 were alarmed at the formidable navy sent by Spain to hold the Chinchas against the world, and these thought, like their brethren in Chile that any resistance on the part of Peru would be only child's play.

The 'Pueblo' of yesterday addresses itself to the final number (42) of Peruvian sympathizers, asking what they are about? We should rather ask the question, if they did anything else but wait patiently the turn of events, content with expressing their sympathies in public and private in favor of Peru. Before the Spanish fleet was reinforced at the Chinchas, the Peruvians had some chance of success if they sent 10,000 volunteers to fall upon the Spanish force of 950 men. But now it is perfectly ridiculous to talk of any declaration of war by the Republic against Spain, as Admiral MacMahon has 120 arguments to silence such speeches, and proclaim in the name of outraged humanity "that murder must be punished."

EDITOR'S TABLE.

Yesterday no later news arrived from Junin, although the Government was expecting a "chacque" every moment. As there is a large Government force in Junin it is generally believed that the Indian invaders will be either caught or slain, still, there is great anxiety felt, as within the last twelve months the camps about Junin have become very thickly settled upon, and the stock of horned cattle very large. It is said that all the Indians at that part of the frontier use fire arms, and that a number of vagabond gauchos are living in the toldos with these savages. Under these circumstances the invasion of these quasi friendly Indians is regarded as rather formidable.

The proposed law for subdividing all the partidos inside the Salado is at present before the Provincial Chambers. Governor Saavedra has sent a note into the House urging the passing of the measure, as most necessary, owing to the increased population in those districts. We confess that we are blind to the advantages to be derived from the multiplication of camp authorities. It can only lead to extra expense and great confusion, and we hope some of our friends in the Chamber will oppose it. Summary jurisdiction and trial by jury is what we want in the camp. Our readers will be pleased to hear that Captain Mansilla, the new Deputy, is about to introduce a few sound measures like these. He agrees with us that the prisoners arrested for crimes in the camp, should not be sent into town, but tried on the spot where the offence was committed, by a jury of neighbors, the Juez de Paz presiding. If Señor Mansilla succeeds in passing this law he will make himself deservedly popular in the camp.

A very important debate took place in Congress on the proposed bill for the emission of National Bonds in lieu of the extra duties, which according to law should be burnt monthly. Sr. Oroño expressed his opinion pretty clearly, and stated that so long as the Government of Buenos Ayres had the power to make new emissions of paper dollars, it was useless to saddle the nation with a permanent debt, which only was obligatory on the nation so long as the budget was voted. The Government had, however, a large majority in the house, and the bill was put and carried. This new emission of bonds has a very prejudicial effect on the value of the consolidated debt.

The projects for redeeming the paper money are getting through the Provincial Chambers, and so confident are people that they will be passed, that a 'terna,' or list of candidates for the post of Bank Governor, is said to be already in circulation. We have heard

the three names which are about to be proposed: Mr. Moreno, Mr. Calzadilla, jun., Mr. J. C. Ocampo. Under the new organization of the bank, the post of Governor will have a good salary attached to it.

The Pávon arrived yesterday from the provinces; everything goes on favorably in the interior. The arrivals in Rosario of bullock carts with produce is rather diminishing at present, but this is attributed to the season. Several sales of land have been effected in Santa Fé, and the works of the Argentine Central R. R. are steadily progressing.

We hear great complaints about the delays in discharging the Liverpool steamers. We suppose that the fault must be with the Custom House or the lighters, as the agents of the steamers are in as great a hurry to have their steamers ready to receive fresh cargo as the consignees of goods are to receive their consignments.

The closing of Congress, we understand, will be a very formal business. Many people are anxious to know what has become of the Custom House law, the budget, the frontier scheme, and a score of other measures too numerous, as the auctioneers say, to mention. We supposed they will be all disposed of to-day in a great hurry, and that in the great pressure of the moment the members forget that cheap ice and dear coal will be the rule for the ensuing year.

There is a great dearth of news in town. Yesterday the only thing talked of was the grand white bait dinner at the President's; all the foreign Ministers, we believe, attended. When Congress closes, Buenos Ayres will become so monstrously dull that the newspapers will have to reduce their size. We, for our part, feel that we must fall back on cotton. Apropos of cotton, we purchased yesterday eighty-six arrobes Corrientes cotton at three-fourths of a silver real per pound in the seed, and will shortly commence to gin it at our office. Several thousand arrobes of Corrientes cotton have arrived, but unfortunately it is all in the seed. According to the last advices we received from Messrs. Stollerfohl, cotton shipped to Europe in the seed is almost worthless as the seed heats and stains the cotton, injuring the fibre most materially.

We hear that the Northern Railway will be delivered up by the contractors to the company's agent on Saturday next, and that the contractors are about to return immediately to Europe.

Mr. Finlayson, the agent of the concessionaires of the Argentine Eastern Railway, leaves for Europe in the Saint-tonge. We bid him a cordial farewell, and hope he will soon return to commence operations.

An important sale of land, situated in the Calle Larga, in Barracas, will shortly take place. We call the attention of our readers to the matter, as land is selling very cheap down there, and we think when the railway is made, it will go up greatly in value.

The members of the Scotch Musical Association are notified to attend a general meeting, to be held to-night. We have been requested to call the particular attention of the members to the notice.

The British Library, we regret to say, seems to be on its last legs. It is really extraordinary how so meritorious an institution is so miserably supported.

Mr. Boch, the proprietor of the Hotel Provence, supplied the dinner at President Mitre's. We have no doubt, therefore, it was most *recherché* and excellent.

The Northern Railway Company proposes extending its line to the Tigre, and not making a tramway, as was originally suggested. We have no doubt this will be a move in the right direction, as the Tigre offers the greatest convenience to river steamers.

The Payon leaves to-day for Rosario, and takes up one or two friends who purpose camp hunting in Santa Fé.

As a sign of the times, we may remark that the passengers by the diligence of Pablo Diaz, from Arrecifes, which left that town on Tuesday morning, arrived in Buenos Ayres the same night. As the distance is over 47 leagues, we think it worthy of note.

THE CALVETE LIBEL.

We read that the Federal Court has refused to admit the plea of Dr. Juan Carlos Gomez in defence of Major Calvete: the suit will therefore be soon brought to trial.

BUENOS AYRES BRITISH LIBRARY.

A general meeting of the subscribers to this institution will be held at the Library Rooms on the evening of Wednesday 12th inst., to take into consideration the advisability of disposing of a portion of the old and unread books on the shelves, the doing away with the reading rooms, and other important matters.

The committee much regret being obliged to call a meeting for the purposes above named, but the pecuniary affairs of the institution are such as to make it imperative upon them, and they trust a numerous body of subscribers will be present to consider the steps to be adopted, most conducive to the well-being of the Library.

LAW FOR THE DIVISION OF PARTIDOS.

To the Senate and Chambers, etc.

Art. 1. The project for the division of the partidos inside the Rio Salado, presented by the Executive, is approved, and the Executive is authorized to issue the necessary decree.

Art. 2. The Executive is authorized to proceed to the division of the partidos outside of the Rio Salado, submitting to the approval of the Chambers the decree which it should issue respecting it.

Art. 3. Let it be communicated, etc.

PABLO CARDENAS.

NEWS FROM THE PROVINCES.

ROSARIO.

The 'Ferro-carri' to the 5th inst. is totally devoid of news. The Iron King, Perseverance, and Harry Falconer discharged 26,000 rails and bars for the Central Argentine, and more than a mile of rails is already laid. We remark that some of the cargoes are consigned to John Thomson and others to the new agency firm of Wild & Perkins. On Sunday the steamer Hercules entered the port of Rosario towing the English brig Garibaldi with jerked beef from Mr. Lafone's saladero at Goya: the tug returned next day up the river. The English brig Sagitta arrived on Monday, en route for the same saladero with a cargo of salt from Montevideo. There was a grand festival in Rosario on Sunday, it being the patron day of the city: a convert was baptized and received into the Roman Catholic church.

Our colleague has an article on cotton planting, but the subject has grown stale and commands no attention nearer than Paraguay. The specie remittances, during last month, to Buenos Ayres were—Bolivians 94,970; Patagons 34,650; Donbloons 192; Condors 211; Marks 1,148; Paper dollars 29,195; Sovereigns 10—in all over £24,000 sterling. The mails from the Provinces arrived on Saturday with the dates:—San Luis, Sept. 15th; San Juan 18th and Mendoza 17th; there is nothing new, all the provinces being quiet. On Tuesday a diligence left for Chile, and it would seem the Cordillera is now open. The 'Rosario' complains that the project of a new town at Guardia Esquina has not been carried out although the subscriptions for the purpose have been collected. We read a decree of the Government of Salta creating a loan of \$12,000 silver for the purchase of 1000 carbines: we should prefer the money were invested in cotton-seed or plough-shares; the interest on the loan is 12 per cent.

PARANA.

We have received the 'Parana' and 'Litoral' to the 1st inst. The festival of St. Michael was celebrated with a grand procession. Sig. Rissetti gave a ball which was attended by all the beauty and fashion of the ex-metropolis. Some samples of Paraguay cotton on being compared with those grown by Sor. Gelabert near Villa Urquiza proved inferior in length, staple and color; we are glad to learn that some Parana cotton sent to Barcelona was pronounced equal to the best New Orleans.

Dr. Carriego draws a picture of the defeat of Nereus at Marathon and Salamis by a handful of Grecians and encourages Montevideo to imitate such noble example in a war with Brazil. He even reminds the Orientals of the burning of Moscow, shewing them that immolation is better than servitude: we fear the lesson will be lost. The same writer condemns the system of sending women for punishment to serve in the hospital, alleging that they return home more corrupted than before, from contact with the demoral-

ized soldiers. We also read that a Public Land office is about to be created at Concepcion, and General Urquiza nominated to direct same. The famous military demagogue Colonel Navarro writes from Nogoyá that he and his division protest against the encroachments of Dom Pedro II. and are resolved to die 1000 times sooner than permit the Brazilians to invade Banda Oriental.

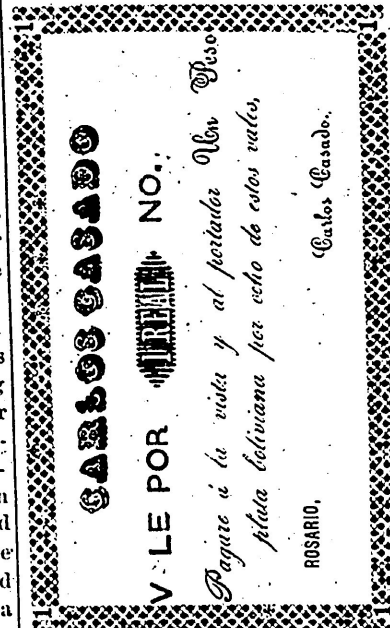

SAN NICOLAS.

The 'Eco del Norte' dates to the 4th inst. The town of San Nicolas is in an uproar. On Sunday, one Mr. Tezanos [editor of the 'Eco'] went to the office of his extinct colleague [Amigo del Pueblo] and challenged Sor. Martinez to mortal combat: the latter replied that he should be most happy to accept the invitation after the elections, but as his valuable life belonged to his party he could not do so before. Next day Tezanos wrote to his adversary, complaining of damaging reports and insisting on a speedy issue, to which Martinez replied that it was child's play, and they had better make up the affair without minding what the public would say. Tezanos publishes the whole correspondence, evidently burning with a Christian zeal to lodge an ounce of lead in his colleague's body.

There has been a serious question about the Justice of Peace sending into town, in irons, some Nat. Guards arrested for not having their papers: the Minister of Government wrote to the Justice a sharp reprimand, which the latter evades on the plea of obeying superior orders from the military Inspector. It seems, however, that the five individuals (says the 'Eco') are noted assassins who have been frequently condemned for murders, and are now sent as recruits for the Gendarmeria de Campaña to expiate their crimes and protect life and property! D. Juan Boerr has entered a second prosecution against the 'Amigo,' and the 'Eco' states that if Justice be not done the only remedy for the present evils is Lynch-law, after the manner of the U. States.

THE NEW PAPER MONEY.

The following is a one real note of the new Casado Bank in Rosario. We understand that these notes are very abundant in Rosario, although unknown in Buenos Ayres.

LATEST FROM GUALEGUAY.

The great talk in Gualeguay is the Railway from Puerto Ruiz to Gualeguay. The Baron Maná has offered to take the line into his own hands, or at least to take one half of the shares, but it has been arranged that all the shares unsubscribed for by the residents of the neighbourhood will be taken by the Baron Maná. The Provincial Government and General Urquiza have promised to subscribe liberally. The Committee named for the railway is composed of Messrs. Jacinto Calderon, Gallino, and I. I. Crespo. The length of the line will be only six miles. The engineer is well known to the Buenos Ayrean public. Mr. Coghlan has published a very interesting account of the exports and imports of the place.

The hotels in the camps of Entre Rios are better attended to—our correspondent tells us—than the Buenos Ayrean ones.

The Government employees are complaining, we hear, of not having received their salaries for eight months. If this be true we should like to know what the Entre Riano Government does with the subsidy of ten thousand patagons allowed it by the National Government.

Don Justo Urquiza, son of the General, has been named Chief of Police for Concordia, an act which deserves the greatest censure, as this young man is, we believe, perfectly incapable of filling any public position.

Respecting the Urquiza intervention in the Banda Oriental question, nothing is heard in Gualeguay to allow even a suspicion as to General Urquiza having anything to do with it.

General Urquiza is at his estancia in San José, preparing to shear. It was rumored that he was about to make a tour through the province, but our correspondent says that this is incorrect.

BISHOP OF MONTEVIDEO.

The V. Rev. D. Jacinto Vera, Vicar-Apostolic of Montevideo, has received from the Vatican his appointment as Bishop in *partibus infidelium*.

The 'Nacional' of Buenos Ayres adds that the Bull was no doubt accompanied with a decree constituting the new diocese of Montevideo, but this is an egregious blunder since the title *in partibus* is only given when there is no diocese, or to a coadjutor Bishop. The epithet 'infidelium' would be very offensive to the Montevideans, were that city not an integral part of the diocese of Buenos Ayres.

The facts, as we understand the matter, are these: Dr. Vera has been named coadjutor to Bishop Escalada without any subdivision of the Diocese, and hence his nominal title of Bishop of Babylon, Thebes, or Ephesus, *in partibus infidelium*.

Apropos, the Argentine Congress has resolved to solicit from the Pope the rank of Arch-Bishop for our worthy prelate, Dr. Escalada.

THE BRITISH AND SOUTH AMERICAN STEAM NAVIGATION COMPANY.

The 'Mercurio,' of Valparaiso, in its European summary, alludes to this company as follows:—"Great has been the joy felt in Valparaiso and in all the republic, at the news of the organization in England of a new steam company, which will perform the service between Liverpool, Valparaiso, and Lima, touching at Bahia, Rio de Janeiro, and Montevideo, by way of the Straits of Magellan. The advantage to Chili promised by the establishment of the new company is immense, and commerce will receive a great impulse. As we are informed, the Santiago agent of the new company has officially communicated to our Government the fact of its establishment. The Government received the scheme in the most cordial and encouraging manner, promising that everything on their part should be done to remove whatever difficulties might present themselves in its working; and to judge from so friendly a reception, this undertaking may indulge reasonable hopes of a speedy success."

The same paper, in a leading article, says "that by the establishment of this company the brightest dreams of a great number of the merchants of Valparaiso would be realized, and that incalculable benefits must result to these republics, and to general commerce, from a new line of steamers which shall secure a direct communication with Europe, without necessitating a transshipment of goods, while at the same time extending and increasing the imperfect relations which are at present maintained with Buenos Ayres and Brazil."

These advices cannot fail to have a very favorable effect on the prospects of this very useful undertaking.

A CHANCE FOR A MILLIONAIRE.

There is a grand chance open to a millionaire. The Danish Government is so pressed for money that we suspect it would sell Iceland, which has an expenditure of £8,000 against a revenue of £4,000, for a good round sum. The island is considerably larger than Ireland, and its 64,000 inhabitants are very good, obedient people. Would not a crown suit the Marquis of Westminster as well as the strawberry leaves? Seriously, Iceland is the best situated place in the world for a penal settlement, isolated and healthy, but, likely to exercise a strong influence over the imagination.—*Spectator*.

ON CHANGE.

October 5, 1864.

Paper price of ounces, \$4534.

Do. sovereigns, \$139.

Patacones opened at 28 40, and fell to 28 35, at which price they closed.

Cash sales, 50,940.

TIME SALES.

For Thursday,	7,000	28 35
Saturday,	12,900	28 35
Oct. 31,	32,000	28 25
Dec. 31,	16,000	28 15
Nov. 20,	1,000	28 20
Total sales,	109,810.	

There was a crowded attendance on 'Change to-day, and every one seemed very busy. Probably for the first time in Buenos Ayres a broker was engaged in selling a parcel of cotton—some several hundred arrobes: parcels were handed round and the sale was at last

effected at one real per pound. The exchange brokers were very busy also. Some £100,000 were passed at from 49 to 49½. We heard of £20,000 which was done at 49½, £6,000 at 49½, and the balance, we believe, at 49½. The London and River Plate Bank we are informed draws at 49½ cash. The brokers say that there is no scarcity of drawers, and we believe that a very large business will be done for this packet. The Maud Bank, we learn, refuses to draw at anything over 49.

Paper money we hear is much easier, but gold is scarce. The feeling on 'Change is, that if patacones are left to themselves they will decline, but so very little affects the market that it is impossible to answer for the value of specie even for one day. The projects of the Government have ceased to have any immediate effect on the money market.

Several large lots of wool are on sale by contracts, but buyers prefer waiting to see the wool in the market and its condition.

There were two charters effected to-day by Messrs. Beun & Co., but we were unable to obtain the particulars.

We are happy to learn that a meeting of the shareholders of the San Juan Mining Co. will be immediately held the majority of the shareholders we understand according to Mr. Rickard's proposals. We have received Mr. Rickard's report, which we will publish to-morrow. All differences existing between the Buenos Ayrean shareholders and Mr. Rickard have, through the interference of President Mitre and M. Riestra, been amicably adjusted.

PRODUCE SALES.

Sole Importers of London: J. W. & J. T. (Whitechapel Lane, London, E.)

All orders made payable in London will receive immediate attention.

A CURE TO BE HAD FOR A TRIFLE.

BY **HOLLOWAY'S OINTMENT.**

Gout, Rheumatism, Enlargement, and Stiff Joints.

A cure of these complaints is within the reach of the most humble, by following the directions given with the ointment, and rubbing it in twice a day. Thousands have been cured who looked upon their sufferings as incurable. The same ointment is also employed for the removal of all kinds of skin diseases, such as scurf, itching, and all the eruptions of the skin. In such cases the Pills should be taken according to the printed directions.

Bad Legs, Bad Breasts, and Ulcers of all kinds.

The cure of ulcers has won for Holloway's Ointment a imperishable reputation, as this healing Ointment will restore any cure, however long, to soundness. Many have been cured of this terrible disease, having severe sores and ulcers, and even cancerous growths, which have been cured by the use of the ointment. The patient should read carefully the directions, for the use of the ointment, which are given in the book of directions, and in the following directions:—As the ointment never loses its efficacy, and the system has undergone a thorough course of Holloway's Purifying Pills.

Coughs, Colds, Sore Throats, Diphtheria, and Bronchitis.

Any of the above ailments may be quickly cured if the Ointment be well and effectually rubbed into the neck and throat twice a day, leaving the parts constantly covered with a rag spread with the preparation. If this treatment be adopted promptly, in an hour it will effectually suppress the most alarming symptoms. It must be evident that an outward application applied to the seat of the disorder must be more effectual than any other remedy. The Ointment is a valuable remedy for all the above ailments, and in all cases it should be used according to the directions in order to subdue irritation, inflammation, or fever.

DRUPY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending to the proper use of Dr. Drup's Ointment, which is a powerful remedy, and when used in time, has a great tendency to disengage, when asthma, dropsy, or disease of the heart often set in. The blood is thus purified, and the system is brought back to its normal state. It is a valuable remedy for all the above ailments, and in all cases it should be used according to the directions in order to subdue irritation, inflammation, or fever.

Youthful Indiscretion.

How many poor women suffer from the indiscretion of husbands, which results in bad legs, swellings, dropsy, and rheumatism, as they suppose, although it is nothing of the kind—but the effect of a certain disease on the system. No ordinary medicine can cure it, because the disease has sunk deep into their constitution. Children often have sores, and bad legs, which are the result of this disease, and which can only be cured by the use of the ointment. The patient should read carefully the directions, for the use of the ointment, which are given in the book of directions, and in the following directions:—As the ointment never loses its efficacy, and the system has undergone a thorough course of Holloway's Purifying Pills.

Both Ointment and Pills should be used in the following disorders:

Bad Legs	Chilblains	Fistulas	Sore throat
Bad Breasts	Chapped	Hemorrhoids	Swelling of the face
Ulcers	Corns		

By URIALARTE & CO., of an Estancia, at their house, Calle Victoria, No. 140.

On Thursday, the 12th of October, at One o'clock, will be sold, without fail, for cash, an Establishment of Camps, in the Partido de Tordillo, and within three leagues of the Pueblo Dolores, containing an area or half a league in front by one in depth. The camp is of a superior class, with abundant pasturage, especially good for the rearing of sheep. It has one poblacion comprising an azotea house with five rooms, monte corrales, &c.; two puestos with ranchos and corrales.

Also, will be sold, at the same time, 2,000 Mestiza sheep, bred on the same camp, and belonging to the same property. For further particulars apply to the Auctioneers. sept.21,18p

Sewing Machines.

A large and varied assortment on hand. Warranted to work well. They are all of the latest and most improved inventions, and of different prices.

JOHN SHAW,

SAVINGS BANK.

BANK MAUÁ AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence. The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount. These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m. till Three p.m. on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn. The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood. Buenos Ayres, September 19, 1863.

P. P. Mauá and Co.

WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars, currency Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p c) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the bank.
Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

TO CAMP PURCHASERS.

GALBRAITH & HUNTER

RIVER PLATE STEAM-SHIP COMPANY.

LIVERPOOL AND RIVER PLATE DIRECT.

NAMES OF STEAMERS.

LA PLATA, PARAGUAY, PARANA, URUGUAY, UNA.

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 1st of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave. In order to facilitate immigration to these countries the rates have been reduced as follows—

1st Class £35.
2nd " £25.
3rd " £16.

Return Tickets will be issued for six months at the following rates—

1st Class £65.
2nd " £45.
3rd " £30.

These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced Stewardess.

The Steamer Parana will leave this on the 14th of October. Apply to HENRY A. GREEN & CO., AGENTS, 85 RECONQUISTA.

Barraca del Atalaya.

This old established barraca, so well and favorably known in the River Plata, has the most excellent accommodation for wool, hides, &c.

The undersigned, sole proprietors of this establishment, begs to remind his friends and the public that he receives consignments of wool, hides and sheepskins from the camp and provinces, and now as the busy season is approaching can offer his services in any of the plazas.

It Cures So Quick.
Railway's Ready Relief, whether applied externally or taken internally, acts at once; there is no delay, but it immediately relieves the patient of pain and discomfort.

MAIL IN THE KNEE PAN.
NAIL IN THE KNEE PAN.
NAIL IN THE KNEE PAN.

A highly respectable lady of the city of New York, while making down some carpets, run a small carpet tack in her knee and suffered the pain. For two years she was laid up, a cripple, and upwards of TWO THOUSAND DOLLARS WITHOUT DERIVING ANY BENEFIT. She was advised to use Railway's Ready Relief; the first application gave her ease, one week's use made a perfect cure. Had this lady tried the Ready Relief when the injury happened, she would have escaped the painful sufferings of two years' duration, and saved two thousand dollars. Bear in mind, that Railway's Ready Relief will prove its marvellous efficacy at once in all cases where there is any inflammation, whether Rheumatism, Lumbago, Gout, Neuralgia, Burns, Scalds, Bruises, Wounds, Diarrhoea, Dysentery, Diphtheria, Influenza, Sore Throat, Hoarseness, Colds. Let those who suffer try it. Price 3s. per bottle.

General Agency and Commission House
WILD & PERKINS,
Rosario de S. P., Cordoba St. 87 & 89.

For the purchase and sale of land in this as well as other provinces; property of every description, domestic produce such as cattle, sheep, hides, wool, grains, metals &c.; consignments of produce as well as merchandise to the interior attended to, despatch of vessels; collections and representations in commercial affairs, &c.

The want of a Land and cattle Agency in Rosario to facilitate the sale or lease of landed property, the examination and arrangement of titles, &c. has been very prejudicial to the interests of new-comers, and has prevented many from purchasing in this Province.

The undersigned will give special attention to this important branch of their business, and their experience in this as well as other countries inspires them with confidence that, in land transactions as well as other commission business with which they may be favored, they will give entire satisfaction.

SANTIAGO J. WILD
WILLIAM PERKINS.
